

Fine Living Redefined

Environmental Policy

We established, implemented and maintain our Environmental Management System to minimize the Environmental pollution caused during the manufacturing of glazed ceramic and porcelain floor tiles and conserve the use of sustainable resources according to our defined plan, through effective communication, education and ethical governance. We have provided frame for setting environmental objectives and review them periodically for achieving continual improvements to meet and exceed all relevant legislative, regulatory requirements and agreements while encouraging our suppliers and contractors to improve their own environmental performances to comply with the needs of the era.

A handwritten signature in blue ink, appearing to read "Priyantha Talwatte", is written over a dotted line.
